SUMMARY

Mobile Software Engineer with 8 years of experience, 2 of which were spent in customer support. I'm passionate about application and game development, with extensive experience and successful projects, some of which have become market successes. I enjoy mentoring and teaching whenever possible, as I believe it's through teaching that we learn more about ourselves and others.

Specialist in Responsiveness and Adaptability: I always strive to find the best way to execute a project to deliver value to the client.

Technical Skills:

- **Mobile Development:**
 - Experience with Flutter and React Native technologies
- **Web Development:**
 - Proficient in ReactJS, JavaScript, HTML, CSS, and Node.js
- **Agile Methodologies:**
 - Knowledge of Scrum and Kanban
- **Desktop Development:**
 - Experience with the Electron framework
- **Native Development:**
 - Experience in maintenance and code refactoring of applications developed in Kotlin and Java for Android
- **UI/UX Design:**
 - Knowledge of UX/UI principles for developing responsive interfaces and layouts
-
